RIVERSIDE GROWERS COOPERATIVE

Harvest Report 2026

A year of growing together

AT A GLANCE

The year in numbers

harvested this year

48 t

member households

212

planted across 9 sites

36 ha

on the 2025 harvest

+18%

Every figure in this report comes from the weigh-ins at the cooperative's three collection points, checked each month by the treasurer.

FROM THE CHAIR

A letter to our members

Our members planted earlier than ever this year, and the long rains came on time. The new storage shed kept the beans dry through the wet months, and the market stall on Harbor Street sold out most Saturdays. Our members planted earlier than ever this year, and the long rains came on time. The new storage shed kept the beans dry through the wet months, and the market stall on Harbor Street sold out most Saturdays.

> *“We grew more food with less water than in any year since the cooperative began.”*

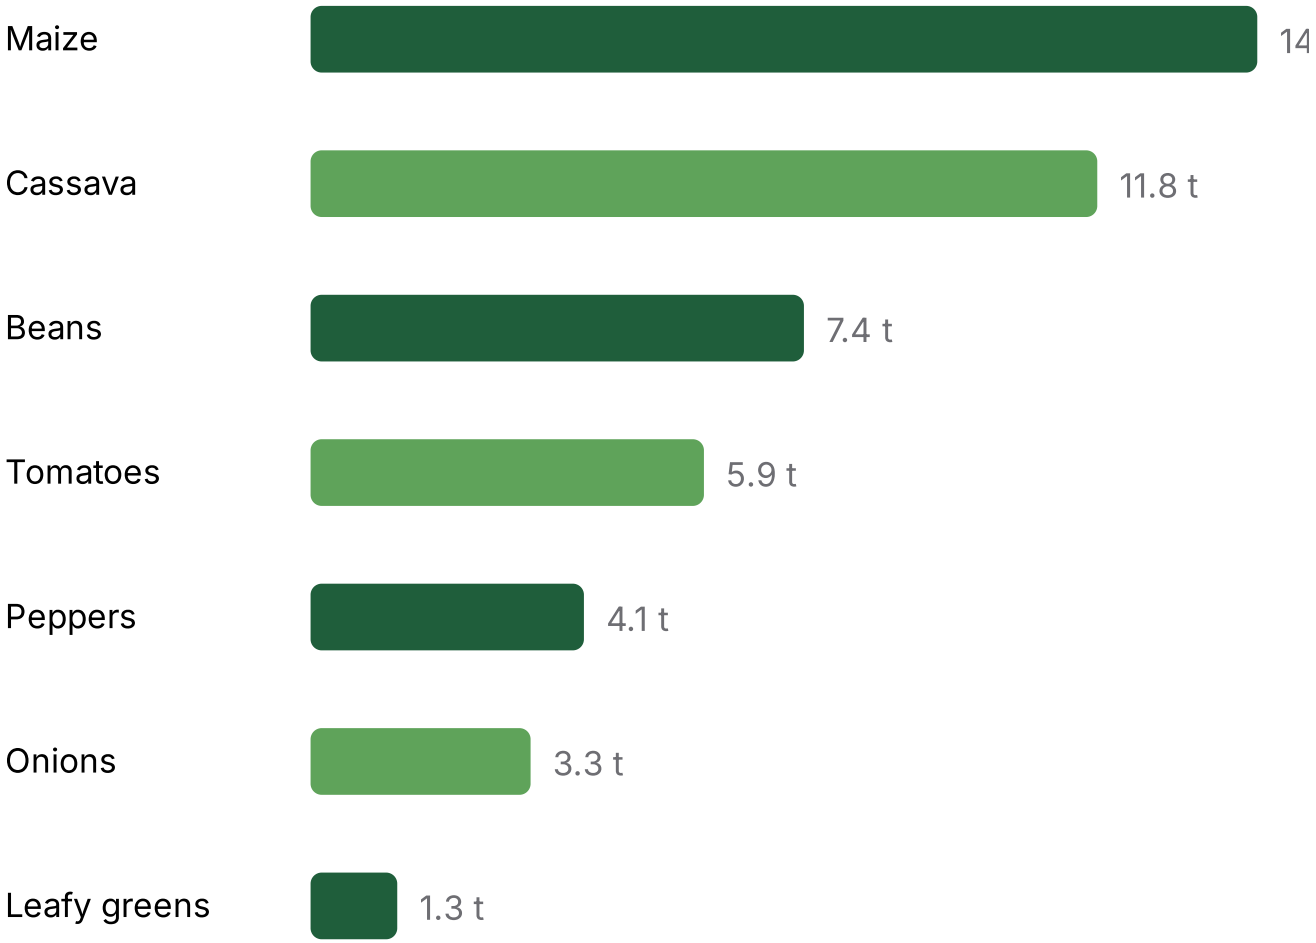

Our members planted earlier than ever this year, and the long rains came on time. The new storage shed kept the beans dry through the wet months, and the market stall on Harbor Street sold out most Saturdays.

Amani Okafor, Chair

HARVEST

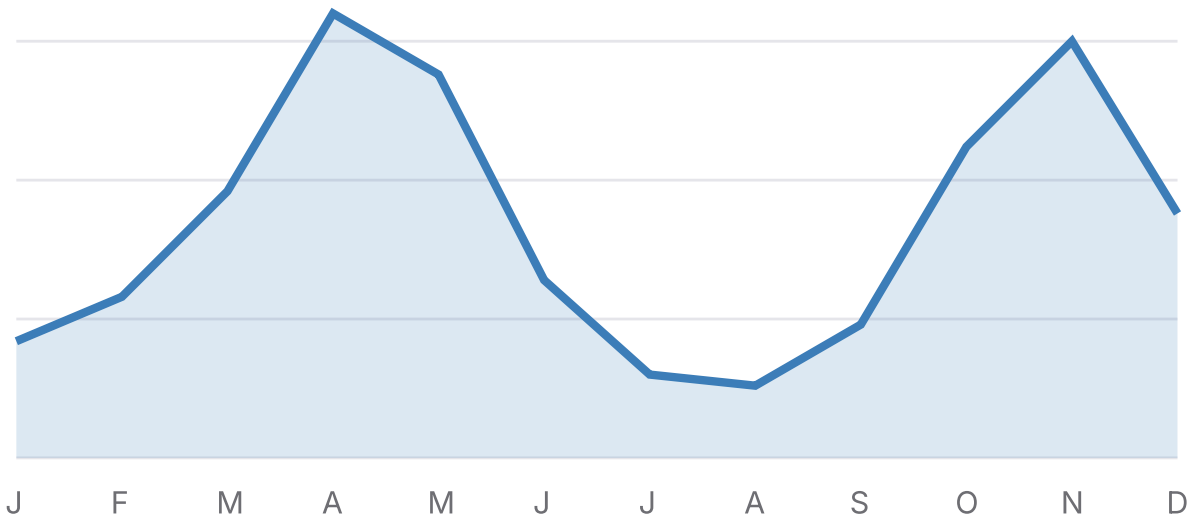

Yields by crop

Maize and cassava made up more than half of the harvest. Tomatoes doubled on last year, thanks to the drip lines laid on sites 4 and 7.

WEATHER

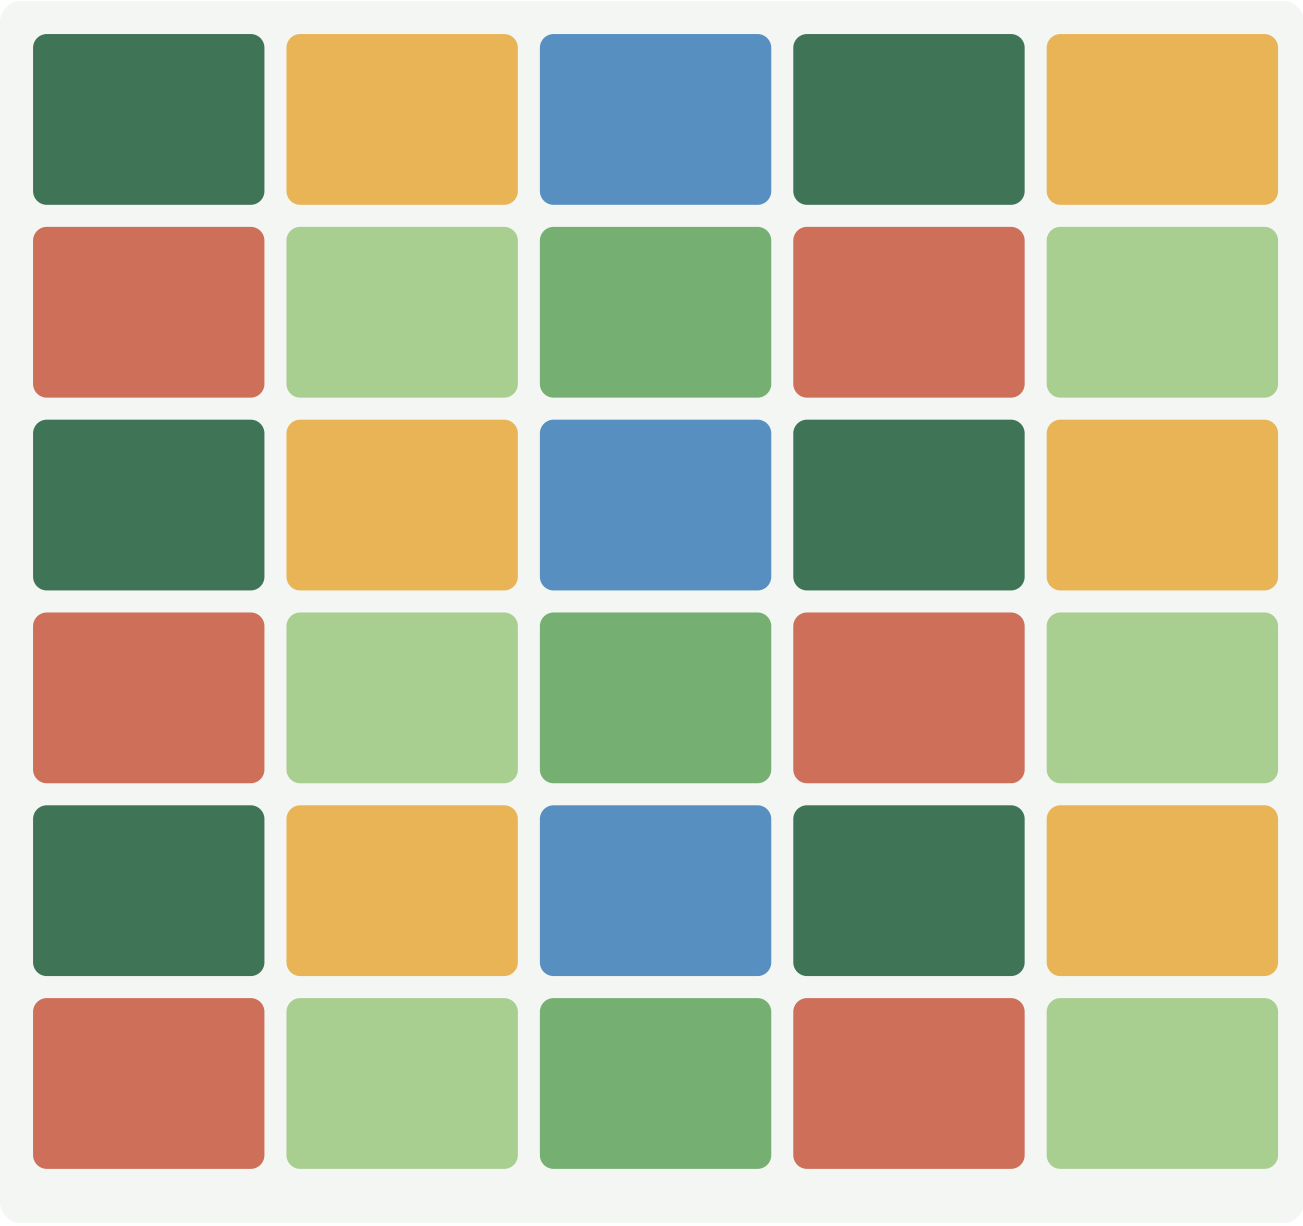

Rainfall, month by month

Rainfall in millimetres at the Harbor Street gauge. The two rainy seasons set the planting calendar: maize and beans go in with the first rains, cassava a month later.

LAND

Who grows what, where

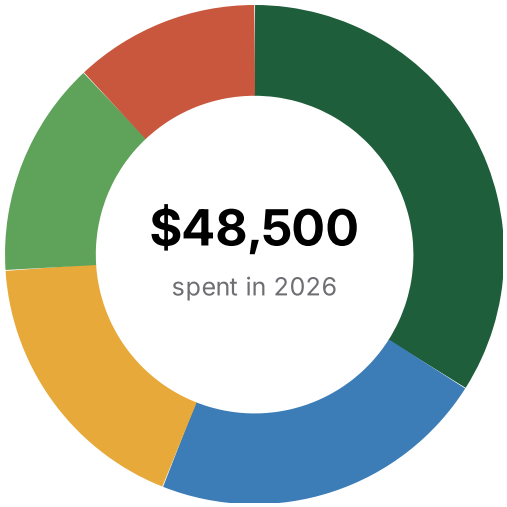

MEMBERS

Plots and harvests

Member	Plot	Main crop	Harvest
Amani Okafor	Site 1	Maize	120 kg
Bea Mutombo	Site 8	Beans	157 kg
Chen Wei	Site 6	Cassava	194 kg
Daniel Ilunga	Site 4	Tomatoes	231 kg
Esther Kalala	Site 2	Maize	268 kg
Farah Nasser	Site 9	Beans	305 kg
Grace Mbuyi	Site 7	Cassava	342 kg
Henri Lukusa	Site 5	Tomatoes	379 kg
Imani Tshala	Site 3	Maize	416 kg
Jun Li	Site 1	Beans	453 kg
Kofi Mensah	Site 8	Cassava	490 kg
Lydie Kasongo	Site 6	Tomatoes	527 kg
Marc Dupont	Site 4	Maize	564 kg
Nadia Mwamba	Site 2	Beans	601 kg

MONEY

Where the money went

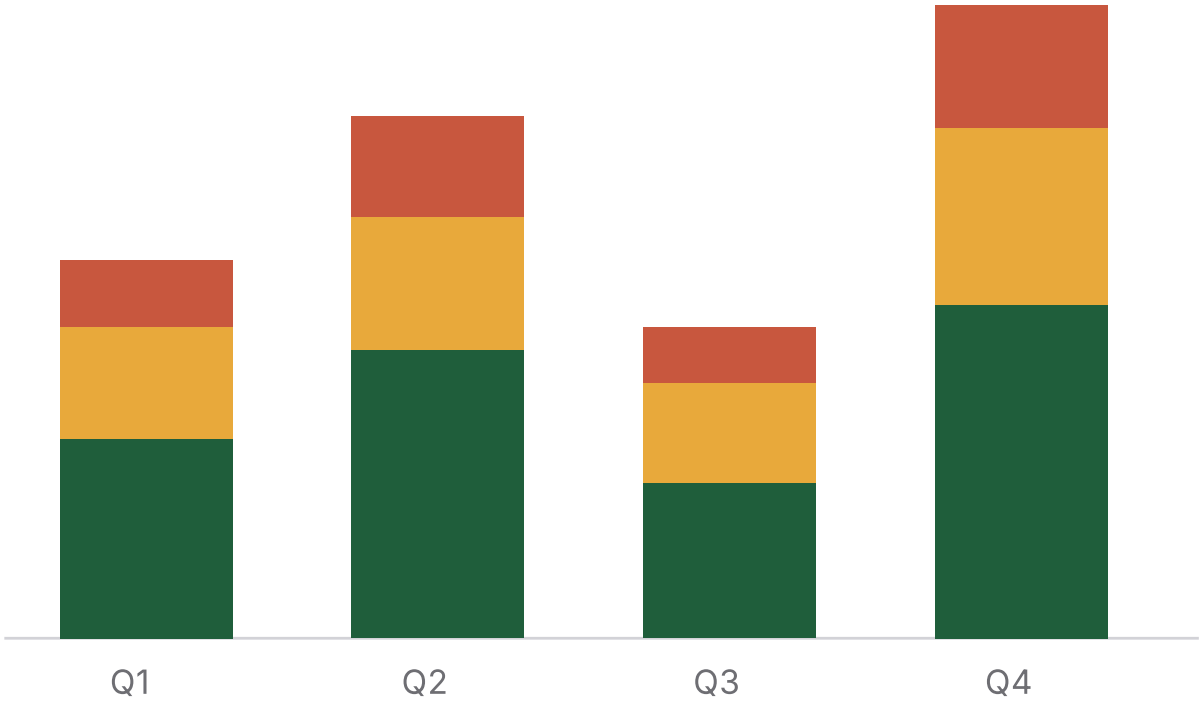

Seed and tools	$16,490
Water	$10,670
Storage shed	$8,730
Training	$6,790
Market stall	$5,820

The neighbourhood fund covered $30,000. Bed fees and the spring market raised the rest.

MARKET

Sales by quarter

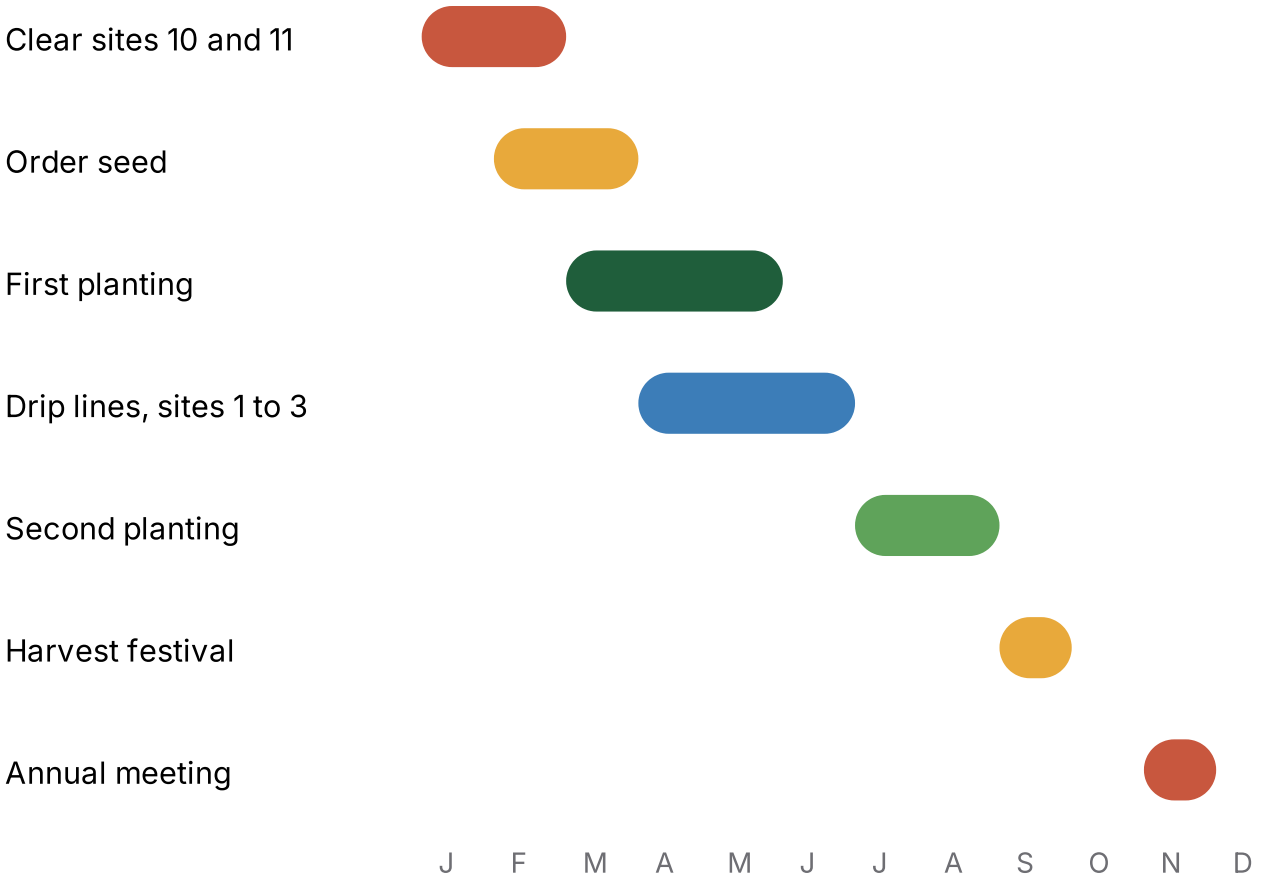

Thousands of dollars: Harbor Street stall, restaurants, and the school kitchens.

The fourth quarter was the best yet, with the school kitchens buying beans and greens every week.

NEXT YEAR

The plan for 2027

LEARNING

Workshops this year

Composting
Turning kitchen scraps into soil, every first Saturday.

Seed saving
Keeping the best seed for next year's planting.

Water
Drip lines and rain barrels for the dry months.

Our members planted earlier than ever this year, and the long rains came on time. The new storage shed kept the beans dry through the wet months, and the market stall on Harbor Street sold out most Saturdays.
