PROJECT BRIEF

Harbor Street Community Garden

A proposal for the spring 2027 planting season

Prepared by Riverside Planning Group · 14 October 2026

Summary

The vacant lot at 212 Harbor Street becomes a shared garden with raised beds for 40 households, a tool shed and a rainwater system. Neighbours sign up for a bed each season, and a volunteer committee keeps the paths, compost and water running.

Goals

- Fresh produce within a five-minute walk for the whole block.
- A quiet green space open from sunrise to sunset.
- Free workshops on planting, composting and seed saving.

Schedule

Phase	Dates	Lead
Clear and level the site	Nov – Dec 2026	City works
Build beds and shed	Jan – Feb 2027	Volunteers
First planting day	21 March 2027	Committee

Budget

Materials, the shed and the water system come to $48,500, of which the neighbourhood fund covers $30,000. The rest is raised through bed fees and a spring market.

Site plan

Each bed is 1.2 by 2.4 metres, with paths wide enough for a wheelbarrow. The shed and water tanks sit on the north side, next to the gate.

Next steps

The committee meets on the first Tuesday of each month. Questions go to the planning group before the city's deadline.
